August 28, 2008

Dear Colleagues,

On behalf of the Faculty Council and the Office for Program Evaluation and Faculty Development, welcome to the 2008 University of Florida College of Medicine (COM) New Faculty Orientation! We are delighted that you have joined us and hope that you find today's program helpful.

The goal of the orientation program is to introduce you to key leaders throughout the COM, familiarize you with some of the resources available to assist you in your career, and provide an opportunity to interact with other new members of the COM.

Again, thank you for joining us today. I hope you enjoy the program and wish you much success as you embark on your career at UF!

Warm regards,

Richard Neiberger, M.D., PhD.
