Subject: Clinical Services Certification Code

Announcement:

New Addition to PeopleSoft grant/contract proposal submissions; to identify Human Subjects and Medical/Clinical Services. This change will be required of all Health Science Center Colleges.

Beginning September 11, 2009, all new PeopleSoft grant/contract submissions using the UF Start proposal page will prompt you to answer a question regarding a new certification code. If you identify human subjects as part of the application, you will be prompted to enter CLSVC (clinical services) to the certification. Please mark 'Yes' or 'No' if this project includes any clinical services. Answer "Yes" if this project requires any technical/professional services (i.e. blood draws, tissue samples, tests, procedures, examinations, medical evaluations, etc). Also if 'Yes' is selected it will prompt you for an Exemption Number, please use "N/A". This new change will assist in compliance and reporting efforts at the University of Florida.

Please contact your College/Department Research Administration Office for any questions. The Research Administration and Compliance Office for the COM can be reached at com-research-admin-comp-1@lists.ufl.edu or 273-5398

Yvonne Brinson, RN MHSc

Assistant Dean; Research Administration and Compliance College of Medicine, University of Florida
